

July 9, 2014

Dear Property Owner, Business or Resident:

You are invited to attend the public information meeting for the upcoming construction of McKee Road (CTH PD) from S. Seminole Highway to Fish Hatchery Road. A project location map, showing the construction limits is below.

The meeting will take place in the **Council Chambers at Fitchburg City Hall, 5520 Lacy Road, Fitchburg, Wisconsin, from 7 to 9 pm on Monday, July 21, 2014**. The meeting will be conducted in an informal, open house format to allow for dialogue and individual questions and comments. A short project presentation will be given at approximately 7:15 pm. City of Fitchburg and consultant representatives will be available to discuss the proposed project and address any questions or concerns.

The meeting purpose is to inform the public of the project schedule and traffic staging. The proposed traffic staging plan includes reconstructing the road, one half at a time, with traffic being routed one lane in each direction. Access across closed sections of McKee Road will only be maintained at the existing traffic signal locations of Richardson/Longford Terrace and Chapel Valley Road intersections as well as Woods Edge Way and the two private driveways that do not have alternate access points.

The six inch layer of existing asphalt pavement will be removed from the entire stretch of McKee Road from S. Seminole Highway to Fish Hatchery Road and replaced. Additionally, within the roughest stretch from Osmundsen Road to Triverton Pike Drive, the existing base course and soil underneath will be removed and replaced, including a new underdrain system to ensure better drainage beneath the asphalt layer. Construction is scheduled to take place between early August and late October of 2014.

A web page has been created (available at: www.fitchburgwi.gov/McKee-Rd) to keep interested persons updated on the project status. You can subscribe to e-mail or text alerts of changes in McKee Road traffic routing (and other roads in Fitchburg) at: <http://www.fitchburgwi.gov/list.aspx>. Just click on "Street Improvements" under the "Notify Me" tab and/or "Transportation Emergencies" under the "Alert Center" tab.

This letter has been sent to businesses and residents that are located within a 600' distance from McKee Road. Please share this information with your neighborhood association, neighbors, tenants, and anyone else who may benefit by this notice. If you have questions or concerns about the construction project, we encourage you to attend the meeting. If you cannot attend this meeting or would like additional information, feel free to contact either of the project staff members listed below:
